

AFTERNOON DISPATCHES

Congress Will Probably Adjourn July 17th

The Washington Gazette talks sensibly on the subject of the adjournment of Congress at Washington, D.C., July 17th.

Associated Press Dispatches.

WASHINGTON, July 3.—The general opinion of the best informed members of the Congress will adjourn on the 17th inst.

THE GARFIELD MEMORIAL CHURCH.

The cornerstone of the Garfield Memorial Church was laid this afternoon on Vermont avenue, the site of the Christian Church which the late President and family attended.

THE PENSIONERS.

The amount paid for pensions on account of the late war to March 1st, 1882, is \$200,000,000. It is estimated that there are on the rolls the names of 250,000 pensioners of the late war. This does not include \$30,000,000 estimated pensioners on account of the war of 1812. The annual value of the 250,000 late war pensioners is \$27,500,000, and of the 30,000 of the war of 1812, \$2,500,000, or an aggregate annual value of \$30,000,000.

IMMIGRATION BILL VETOED.

WASHINGTON, July 3.—The President to-day returned to the House the Immigration bill without his approval. While expressing his entire sympathy with the objects of the bill, he pointed out several serious defects in it. A good bill of the same character, correctly phrased, he said would receive his prompt assent, as a public necessity and blessing.

MRS. PACHECO STILL VERY ILL.

Mrs. Pacheco's severe illness continues without any great change toward recovery.

REVENUE TALK.

The Sunday Gazette prints the following: The Cabinet secretly considered the propriety of the request made by the Chinese Minister to allow of the passage through this country, en route to China, of sixty thousand coolies from Cuba. It was affirmed that hard work and expense would accrue to them if they were not allowed to take this route. The Executive very properly denied their request. The pro-Chinese press everywhere with their usual ignorance of the facts had taken up a diplomatic falsehood of ancient Chinese date and continued to repeat it until on the wrong done coolie men and brothers. What wrong, pray? It was said that, Chinese-Cuban laborers would have to return home by way of England. That is a falsehood. Every one of them went to Cuba by ship from Hong Kong to Panama, crossed the Isthmus and thence by vessel went across the Caribbean sea to Cuba. Probably not one of the sixty thousand returned to China, but all landed in the United States. Why, then, should they return this way, and by the most expensive methods for their persons. Why not let them stay in the United States, and second, to show in what manner and how shrewdly Chinese dealers in labor are endeavoring to circumvent the law. If Cuban coolies should be allowed to pass through the United States, by far the larger proportion of them would remain here.

STAR ROUTE CASES.

The opinion is becoming quite general among the legal fraternity that nine Star Route cases are to be given to the jury, but they may be thrown out of court by Judge Wiley and the indictments dismissed. The rulings of Wiley upon the evidence thus far being submitted is not strong enough to convict, the other cases will fall.

TO ATTACK NEVADA TO CALIFORNIA.

The House bill to abolish the State of Nevada and attach it to the State of California, on motion of Berry, was referred.

Water-sport on Colorado.

COLORADO SPRINGS, July 3.—A water-sport visited this vicinity last evening. The center of the storm was at Manitou Springs, in which place houses were more or less damaged. Water came down the mountains through Williams, Buxton and Ute Pass cañons, forming a white eight feet high and sweeping everything before it. Several parties of excursionists during the day, had gone up these cañons, and it is feared some have perished. One body washed down Williams cañon swept past the hotel and lodged in the floor. A "bull" filled with passengers, which had started for the train, was swept from the street, and cattle and horses were carried away. Half stumps, measuring thirteen inches, fell, breaking windows and destroying stables. Over one mile of track of the Denver & Rio Grande Railroad was washed away. The wagon bridges between Manitou and Colorado Springs were broken. The loss is placed at from \$75,000 to \$100,000. It is expected that the reports of to-morrow will disclose further loss of life.

A Fight with Horse Thieves.

SAN FRANCISCO, July 3.—A Linkville, Oregon, dispatch says that Thursday night two men, last Thursday, overtook two horse thieves who had been tracking. A fight ensued, in which one robber was killed and the other mortally wounded.

More Salts.

NEW YORK, July 3.—A consignment of presleytes to Merionism arrived here yesterday numbering 992, under supervision of Elder Irvine, Dr. Ormsley, a missionary, and thirty-two missionaries of minor rank. The immigrants had a fair amount of luggage. A majority were young people.

Repression Bill Passed.

LOSTOM, July 3.—After a continuous session of almost thirty-two hours the House of Commons passed the Repression bill. Before the passage of the measure a number of House members were suspended for obstructing the proceedings of the House.

An Overdose of Chloroform.

CORVOS, July 3.—Yesterday evening about 5:30 o'clock some friends called upon Garrett Smith, a resident of this place, and found him in an unconscious state. Medical aid was immediately called and it was found that he had taken an overdose of chloroform. He was taken to the hospital, where he died about 11:00 p.m. He was about 35 years of age, and was a native of Iowa. He was a member of the local lodge of the Odd Fellows, and was a well-known and popular man.

A SCRAP OF HISTORY.

BY A HINDOO.

It was the first year of the reign of Arthur that two powerful tribes became arrayed against one another in the valley of the Perquites. They occupied adjacent territory, but between lay a strip of mineral land called Perquites. It so happened that neither could claim the land of Perquites by right of inheritance, and so it became the object of much anxiety, intrigue and strife between the neighboring tribes. One of these hostile tribes called the Dem had long controlled the land of Perquites and worked its mines of gold and silver to great advantage, but latterly the rival tribe called the Rep had come to share the proceeds of the works through the acquisition of a large part of the disputed ground. The peculiarly jealous relations of these tribes between themselves gave rise from time to time to some strange customs, and among these the most remarkable and serious was the annual battle between them for the possession of the mines of Perquites. Upon questions of supremacy and lineage the tribe of Rep took precedence, while in the matter of brawn the Dem excelled—and so, upon the main question the Dem were victorious. The abundant wealth drawn from his possessions has enabled this tribe, and its retainers, to decorate their persons in blue and gold; and in this imposing attire, and armed with staves and decorated with stars, they arrogated the right to control the conduct of all the people of Perquites of whatever tribe.

The time appointed for the annual conflict is approaching, and the tribes are engaged in the preparation of the inevitable conflict. Rumors of war reverberate throughout the regions of Perquites, and the mines thereof are agitated even into the remotest dips and angles, by the clamor of marshaling hosts. The brain of the Dem is in good condition and the chiefs of the Rep are passively fine. The chiefs and knights of the Dem are arrogant and the Reps are defiant. The chiefs of the Dem are confident that the Reps have assembled and perfected a platform which they believe will throw terrible confusion into the ranks of the Dem and give the entire control of Perquites to the Reps as the result of the coming struggle. The end to be attained is the deposition of the Dem and the establishment of the Reps as the dominant power in Perquites. The Dem are confident that the Reps have assembled and perfected a platform which they believe will throw terrible confusion into the ranks of the Dem and give the entire control of Perquites to the Reps as the result of the coming struggle. The end to be attained is the deposition of the Dem and the establishment of the Reps as the dominant power in Perquites.

The diagram given below threatens to have a great run as the 19-14 puzzle. It is called the "bisected, circumscribed square" and the point is to make the entire figure without taking the pencil from the paper, or retracing any of the lines. The craze is raging most virulently in Louisville at present, where it was started by a professor of mathematics, who, by his dashes of the figure with such graceful swiftness that no one can catch the secret of it.

THE WEEK AT SANTA ANA.

By Herald July 1.

Mr. J. N. Howe has removed with his family to his residence in Tustin. Willie Hannah, of this place, while at Rocky Point, near Newport harbor, last Monday, found the bones of a human being in a rocky nook about ten feet from the water. It is supposed to be one of the persons drowned at Newport some two years ago, belonging to the steamer. The bones were gathered and brought to town, and are at Spurgeon Bros. store.

The following were the exports from the Santa Ana depot during the week ending June 30th: Potatoes, 243,385; apples, 12,120; oranges, 4,380; peaches, 2,000; grapes, 500; pears, 300; corn, 500; general merchandise, 2,100; total, 90,290 pounds.

We understand that the flour mill of Dillon & Co., at Berrell Point, is about completed and ready for the machinery, which is now on the way from the East, and will reach here in about ten days. The mill building is practically finished in height, finished in good shape and supplied with all the latest and most improved machinery.

The Santa Ana Valley Irrigation Company now supply 11,400 acres of land in the valley with water, and at least half this area is covered with trees and vines. Nearly, or fully, 6,000 acres are, then, planted to orchards and vineyards.

At the regular meeting of Santa Ana Lodge, No. 82, A. O. U. W., held on Tuesday evening last, the following officers were elected to serve for ensuing term: A. Waite, Master; Workman; H. Nell, Foreman; H. O. Farnon, Treasurer; Geo. E. Freeman, Recorder; R. B. Dibble, Financial; A. Foster, Receiver; L. Goepfer, Guard; W. O. Clayton, Inside Watchman; C. Mosher, Outside Watchman; M. J. Bundy, Trustee; Drs. Howe and Crane, Medical Examiners.

The diagram given below threatens to have a great run as the 19-14 puzzle. It is called the "bisected, circumscribed square" and the point is to make the entire figure without taking the pencil from the paper, or retracing any of the lines. The craze is raging most virulently in Louisville at present, where it was started by a professor of mathematics, who, by his dashes of the figure with such graceful swiftness that no one can catch the secret of it.

Henry T. Finney, dangerously hurt Sunday evening.

A serious accident happened Sunday evening to Henry T. Finney, the liverman, who lives on three miles on the Santa Monica road. He went out to the pasture to bring up a cow which was staked out. He had unlatched the rope from the stake, and had started to drive the cow before him to the corral when the animal started to run. The noise that had been around the stake fell to the ground, when Mr. Finney stepped his right foot into the noose, which was hanging close to him, jerking his leg suddenly from him. Right out straight sideways from the body, and dragged him a considerable distance. He fell on his back, and was unable to get up. He was found by a neighbor, who called a physician. The accident is one that very rarely happens. Mr. Finney will be a long time getting well. He formerly kept the Beguena street livery stable, in partnership with Mr. Dequy.

An Immense Establishment.

Harper, Reynolds & Co. have removed to the mammoth store, 108 and 110 Main street and 77 Los Angeles street, the new building of which:

The main store is 90 by 40 feet, with ceiling 16 feet high in the clear, in the rear of which is a large elevator connecting with the tramway in the basement below. The warehouse and office in the rear of main store is 40 by 60 feet, back of which is a few feet below is the basement connecting to Los Angeles street. The whole length of the establishment from Main to Los Angeles street is 270 feet, with tramway extending from street to street. The front basement is the general store department—the rear part occupied by the extensive car manufacturing department. A little further south is the sheet iron pipe department, where pipe has recently been manufactured for the Carney track, Water Works, the Harwood Land and Water Co. of Cucamonga, and the Orange Grove Association of Pasadena.

They have costly machinery adapted for manufacturing every description of car, pipe, etc. Every house can be thoroughly tested before leaving the premises, and the work is done constantly employed. The firm are agents for the celebrated Alexander and Sons' car, which is the best in the world. With a partner who is connected with one of the oldest hardware houses in New York, the firm are enabled to compete with any house on the coast.

Attention, Ladies!

If you are going to the ball of the Ladies' Benevolent Society, on Tuesday evening, July 4th, we would suggest that you leave your delicate and expensive hats at home on that evening, as we will present each lady at the ball with a pretty, serviceable fan, which will not break. Reserve your thanks until you see them. Feich Bros., 38 Spring street.

BOARD OF SUPERVISORS.

Board met pursuant to adjournment. Present: Board and the clerk.

Minutes of last meeting read and approved.

Board opened as a Board of Equalization, the County Assessor, being present, turned over the assessment roll consisting of five volumes, together with maps and indices.

On motion of Supervisor Cooper it is hereby ordered that in all cases where an assessment is increased or diminished three days notice shall be given by the Clerk of this Board of the time of examining the same, to parties in interest.

Adjourned and opened as a Board of Supervisors.

Garden Grove School district bonds—Awarded to A. R. Loomis.

County Advertising—Awarding of the contract deferred until 1 p. m.

In the matter of a road in Anaheim, extension of Sycamore street—On motion of Supervisor Eagan the petition was granted.

Mountain View school district bonds, on motion of Supervisor Eagan was granted.

Orange school district bond—On motion of Supervisor Egan were ordered to be issued.

Petition of Lanterman et al for road in Canada ranch referred to Supervisor Prager and Rogers.

In the matter of the petition of C. White asking that jurors and witnesses in Sunday law cases be paid. On motion of Supervisor Hannon the prayer of said petitioner is hereby denied.

Contract for advertising is hereby awarded to the Daily Times for one year.

Board adjourned until 10 a. m., Wednesday July 6th.

Patriotic Poem.

Ma. Ezzon—Please print the following in your enlarged edition, July 4th. It is the outpouring of a patriotic heart, and it is the morning glory, about as witty as it could be well be:

July 4, 1892.

Let the boys make a noise.

SEKON.

Redwood Lark.

The Chinamen Lee Look, Kwai and Shin, who were arrested on a charge of dealing tan, were each taken before Judge Sepulveda yesterday on a writ of habeas corpus, and the bail of each was reduced one-half, or to \$250.

An Auspicious Event.

On next Saturday evening the citizens of Los Angeles city and county will be favored with another of Miss Mamie Perry's delightful concerts. She will be assisted by Professors Fiske and Zellner, Miss Evans, Miss Carter, Mr. Fiske, Mrs. Mayo, Dr. Sawyer, Mr. Carter and Mr. Whitney, all well and favorably known to the people of Los Angeles as artists of rare merit. Miss Perry's well known kindness of heart prompted her to favor the public, has in this instance for the purpose of aiding in the purchase of a pipe organ for the new Episcopal Church of Los Angeles. The object in view, in moving about the handsome of the entertainment, should meet with a hearty response from the public. The program appears in our "To-day."

Disgraceful.

Morality and decency were vainly violated last night by a gang of thirty drunken hoodlums marching up and down Main street about one o'clock, following two others, who were supported by their own drunken prostitute. As usual, the police were not on hand.

The New Theater Begun.

Ground was broken for the new theater yesterday morning on the corner of Spring and First streets. The ceremony was held at ten o'clock, and the guests all have ten days notice to leave, when further work will be actively prosecuted.

Edmunds & Co., manufacturers of shoes and leather goods, are the largest dealers in Southern California, 104 1/2 Main street.
